

New Uvex Strategy™ Goggle Delivers Maximum Over-the-Glass Protection with Industry-Leading Value

Face-Hugging Material and Rugged Design Withstand the Harshest Environments

SMITHFIELD, R.I. – September 18, 2006 – Uvex®, the leader in safety eyewear, today announced the launch of its new Uvex Strategy™ Goggle. The over-the-glass (OTG) goggle fits over most prescription eyewear and provides a high quality, cost-effective option that protects even in the harshest environments. The Uvex Strategy Goggle meets both ANSI and CSA standards.

The Uvex Strategy Goggle's lightweight body is comprised of soft, flexible thermopoly elastomer (TPE) that conforms comfortably to the face, unlike other products which use rigid polyvinyl chloride (PVC). Four models are available to suit a variety of working conditions including direct vent, closed vent, indirect vent and indirect vent with foam-lined vents for fine particle protection. Each model offers a snug seal and superior protection against impact, chemical splash, dust, sand and debris. In addition, the goggle features a polycarbonate lens for excellent peripheral vision and added security. Lenses are also available with Uvextra™ anti-fog coating to minimize fogging in hot, humid environments.

“In the past, workers seeking a more affordable goggle had to sacrifice comfort with PVC alternatives that are now on the market,” said Erica Osley, group product manager, American brands. “We wanted workers to have the peace of mind that they are protected by a goggle that is comfortable enough to wear all day and provides uncompromised value – the Uvex Strategy Goggle accomplishes both objectives.”

Uvex Strategy Goggles comply with the ANSI Z87+ and CSA Z94.3 standards.

About Uvex

The world's top-selling protective eyewear brand, Uvex has been an acknowledged leader in safety eyewear innovation for more than fifty years. The pioneer of many groundbreaking innovations such as a cost effective silicone goggle body and MMT – Multi-Material Technology® – Uvex is a leading brand of the Bacou-Dalloz Group. Bacou-Dalloz sells Uvex branded safety eyewear and face protection products only in the Americas. For more information, please visit www.uvex.com.

About Bacou-Dalloz

Bacou-Dalloz is the world leader in the design, manufacture and sale of personal protective equipment, offering a comprehensive range of safety products designed to protect people from hazards in the workplace. The Group specializes in head protection equipment (eye and face, respiratory and hearing protection), body protection equipment (clothing, gloves and footwear) and fall protection equipment. With a worldwide presence and over 6,000 employees, Bacou-Dalloz endeavors to contribute to ongoing improvements in workplace health and safety by providing innovative, comfort-engineered products that workers want to wear. The Group's products are sold through a worldwide network of distributor partners for use in all sectors of activity (construction, manufacturing, telecommunications, homeland security, petrochemicals, medical, public services, etc.). Bacou-Dalloz is listed on the Premier Marché of the Euronext stock exchange in Paris, and is part of the SBF 120 index.
