by SPERIAN

Genesis X2™

High Performance Protection

- Wrap-around 9-base uni-lens style for uncompromised peripheral vision and superior coverage.
- Available with Dura-streme™ dual coating technology which combines our two best lens coatings — Uvextreme® anti-fog on the interior and Ultra-dura® anti-scratch on the exterior — for 3x longer lens life.*
- Offers highest available impact protection. Meets ANSI Z87.1-2003 (High Impact) and military V₀ ballistic impact test (protection against impact energies 7x higher than ANSI requirements).
- Available in a wide range of lens tints to address the needs of a variety of work environments.

Superior Comfort & Fit

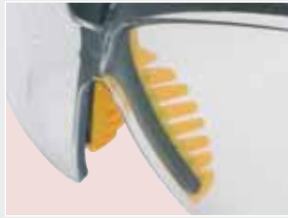

- Soft elastomer browguard diffuses and deflects impact while providing comfort at all contact points.
- Soft flexible fingers on the nose piece adjust and conform to almost any nasal profile to reduce slippage.
- Ratcheting temples allow customized lens inclination.

Product Platform Advantages & Value

- Economical and easy lens replacement system allows for multiple lens tints and extends the life of the eyewear.
- Multiple models in a family offers standardization while offering workers choice.
- Lifetime frame guarantee.

Three position ratchet lens inclination adjusts to complete the fitting system and provides unsurpassed extended wear comfort.

Soft, flexible nose fingers conform to fit a variety of nasal profiles.

A unique ventilation channel, between the frame and lens, vents the eye socket area to deliver an outstanding level of moisture and fog control.

Aggressive lens design adds sport-inspired styling.

*Comparative lens life test performed using a Bayer Abrasion Test method and may vary between environment and application.

Genesis X2™

Clear — Used for most indoor work applications

Espresso — Minimizes strong outdoor sunlight and glare

Amber — For low-light applications where enhanced contrast is needed

Gold Mirror — Deflects sunlight and glare

SCT-Vermilion — For indoor applications where contrast is needed, such as inspection.

SCT-Blue — For applications with high levels of sodium vapor lighting

SCT-Reflect 50 — Light mirror coating for varying light conditions

Gray — Minimizes eye fatigue due to outdoor sunlight and glare

50% Gray — Minimizes outdoor sunlight and glare

All Uvex® lenses offer 99.9% ultra-violet protection.

Uvextreme® anti-fog coating performs under the most extreme conditions and will not wear off after repeated cleanings. It is permanently bonded to the lens and retains anti-scratch, anti-static and UV protection properties. Ultra-dura® hard coat is permanently bonded to the lens and is scratch-resistant and chemical-resistant. Uvex Dura-streme™ lenses combine our two best lens coatings on one lens: Ultra-dura on the exterior and Uvextreme on the interior to provide up to 3x more lens life. Advanced TPE formulation performs exceptionally well in environments where chemical mist, cutting oils and high moisture are present.
